

Spelman College Health Careers Program

August 24, 2024

Greetings and Congratulations,

The Spelman College Health Careers Program is excited to partner with the Emory University Humphrey Global Health Fellows Program. The Fellows in the program are Fulbright recipients representing 11 countries. They will serve as mentors throughout the 2024-25 academic year. Please review the following link to learn about last year's cohort (<https://sph.emory.edu/departments/gh/fellows/humphrey-fellows/index.html#AboutUs>). Your desire to work with a partner denotes your commitment and passion towards a career in global health and medicine. As a junior level student, you are expected to be present at designated events and communicate with your mentor two times a month. The following students are in your cohort for the program's duration.

- Parker Chambers
- Janae Shaw
- Madison Conyers
- Ashe' Kelsey
- Aaniyah Jarrette
- Brooke Carter
- Kayla Elaine Brown
- Jadyne Sheats
- Ayishat Yussuf
- Chelsea Tamara Benton
- Zoe Lacey

The first week of September, you will receive a schedule of events. After reviewing that schedule, please tell our office if you want to continue with the program. Students should not miss more than 2 events over the academic year.

Again, I would like to express my excitement about your participation in the program. If you have any questions, please feel free to contact me at rbass@spelman.edu.

Sincerely,

Dr. Rosalind Gregory-Bass
Director, Health Careers Program
Coordinator, Health Career Opportunities Pipeline Preparation Program
